Great credit is due the ladies for the taste displayed in the decoration of the hall. The menu was appetizing and needed no greater recommendation than to say that it made everybody happy.

Andrew Bessell, of Gouldsboro, was robbed, he says, of \$20 in a Penn avenue saloon, Scranton, on Wednesday night. Bessell came to town to see the sights and while on Penn avenue he fell in with some jovial spirits who invited him to pay for several rounds of drinks. Several hours later, when he awoke, he was minus his wallet. In reporting the matter to the police he said he couldn't remember what saloons he had visited.

Deposit is in fine feather and glee over the coming of Kelly & Steinman to that town. Flags were out and crowds thronged the depot to welcome the first car load of machinery. The Courier has a two-column article with big head lines announcing the opening of the Outing company's factory. In another column is an advertisement for young men and boys to learn the glass cutting trade. The editorial columns of this paper are full of articles expressing their joy over the coming of an industry.

John H. Weaver, proprietor of the Wayne Hotel, was one of the maddest men in Wayne county on Wednesday night, when a crowd of hoodlums, consisting of young men and boys, numbering over 100, rushed upon his porch, and had not Mr. Weaver barred the way by standing in the doorway, there is no knowing how far into the hotel they would have gone. When Mr. Weaver got over his surprise it took him only one minute to drive the crowd out into the middle of the street where they continued their hooting and shouting. This crowd of hoodlums had followed a man from one of the glass cutting shops and with cries of "throw him in the river," had endeavored to put their threats into execution. Landlord Weaver gave free vent to his feelings in language that was clear, concise and emphatic, and if it could be engrossed and placed upon exhibition, the officials of our borough whose duty it is to maintain order and protect the lives and property of its citizens, would wake up.

It looks like a landslide for Harvey Huffman of Monroe county in landing the Democratic nomination for State Senator for this district. All the other candidates have taken to the woods excepting Joel Hill of this county. As Wayne county's vote is but a speck on the horizon in this district, it is all over but the hollering.

Saturday evening a number of those who are interested in the poultry business met at the town hall to listen to T. F. McGrew lecture on "Instruction, Brooding and Feeding." Those who were present were well paid for they listened to a most excellent talk on poultry raising. The Delaware and Hudson have constructed at Lake George, N. Y., a Marine Railway to facilitate the unloading of launches from railroad cars direct into the water. A submarine track extends from the shore into deep water, permitting a boat having six feet draught to be floated clear of the cars. This avoids all possibility of damage by hauling in the old way, and the tariffs filed by the Traffic Department concerning the service indicate that in addition to the great improvement in service, boat owners will find it more economical.

There is to be a new hose house up-town in the neighborhood of Fifteenth and Sixteenth streets. J. D. Weston has the matter in hand. If you see any young men whom you know in your back yard, they are not looking for the hired girl, but are taking observations so as to be able to serve you in case of fire.

A reception was given to Rev. M. D. Fuller, D. D., and family, Thursday evening, April 14th, at the Methodist church at 8:15 by the members of the church and congregation. SCHWAB TO BUSINESS MEN.

A meeting of the business men of the boroughs of Bethlehem and South Bethlehem and Charles M. Schwab, the head of the big steel plant there, was held this week when Mr. Schwab put it up to the business men whether they wanted to support the strikers, who are largely in the minority, or the men at work. He showed that there were 6,500 men at work, 1,000 had left town since the strike had started, and that there were about 500 on strike. The strike leaders have sent letters to the governments, for which the company is filling contracts, asking them to withdraw the same, thus questioning the ability of the company to fulfill them. Mr. Schwab demanded that the business men decide between the two. The boroughs are dependent on the big industry and realized that if its contracts were interfered with, the towns would suffer. The business men voted to support the men at work.

President Schwab read a letter from the Ambassador of one foreign government for whom work is being done, and who had received a letter from a strike agitator concerning the strike at the plant, in which the gentleman wrote that in his country a man who would attempt to interfere with the work of a big plant such as the Bethlehem Steel plant, would be considered a traitor to his country and would be shot.

Here in the land of the free this sort of thing is not done, but it does seem that the strike leaders have gone a long way out of their line of business to attempt to impair the business of the concern with which there is trouble by questioning its ability to carry out contracts. The company must furnish the required bonds to make good in all contracts and it is no concern of the individuals.

The position taken by the president of the steel plant was certainly manly, and the business men cannot be criticised or standing by the concern that has made the section for miles around prosperous. Nor is this all. The future plans of Mr. Schwab are of such magnitude that the Bethlehems can look forward to great growth. But the labor troubles must be settled first. It is such conditions that interfere with the growth and increase in importance of any community.

How to Make Homemade Apple Butter

This is good when one cannot secure the cider to make the usual recipe for apple butter. Cut up the apples without peeling, take out the cores and bud places, cover them with water and put on the stove. Cook till soft, then put through a colander. Set back on the fire and add a cup of sugar and one of molasses to about two quarts of the apples and a lemon cut up fine. Let this cook slowly for about half an hour, stirring often. A little cinnamon and allspice may be added if desired. Serve cold or put in jars while hot and seal.

How to Keep Spectacles Clear.

To prevent eyeglasses from steaming in cold weather rub the glasses thoroughly on both sides with a little vaseline or cold cream, then rub with tissue paper or cloth to clear the glasses. Glasses treated this way will not cloud or steam in the coldest weather for twenty-four hours.

THE MASS MEETING. Will somebody tell us of what earthly use Socialist Weiser is to Honesdale? Has he ever done anything for labor except to puff and blow, cause strife and discontent by the talk of "down with the capitalist, all they have belongs to us?" It was an insult to the union men, who, as a whole, are honest, honorable men, to have a man holding the views of this man, to preside at a public meeting of union men. We hope the public will not judge us by the pernicious doctrine that this man promulgates. Some one should have told Mr. Luckcock of the effect this man's presiding would have on the general public.
